EXPERIENCE

Full Stack Intern : Curious Team Learning Pvt. Ltd.

(Aug 2025 – June 2026)

MERN Stack, RESTful APIs, PhonePe Gateway

Remote – Kota

- Developed and maintained full-stack web applications using the MERN stack, contributing to frontend/backend architecture and production deployments.
- Integrated the PhonePe Payment Gateway for secure transactions and optimized scalable RESTful APIs for authentication and data management.

Software Development Intern : Market Things

(May 2025 – July 2025)

React.js, Express.js, JWT

Remote – Kota

- Engineered a secure telehealth platform facilitating real-time doctor-patient consultations, sustaining uptime for daily active users.
- Implemented rigorous JWT authentication securing clinical records and preventing unauthorized access attempts.

Full Stack Developer Intern : True Value Infosoft Pvt. Ltd.

(May 2026 – July 2026)

Next.js, PostgreSQL, Firebase

Remote – Jaipur

- Developed a Bank Statement Digitizer platform using Next.js, PostgreSQL, and Firebase, automating the extraction and processing of financial data.
- Designed intelligent data parsing workflows and built secure backend services to convert unstructured financial documents into searchable digital records.

PROJECTS

Bank Statement Digitizer 🌐 🚀 | *Next.js, PostgreSQL, Firebase, Data Parsing*

- Developed an automated financial data extraction platform capable of parsing and digitizing unstructured bank statements into searchable records.
- Designed a scalable PostgreSQL database schema to efficiently store, retrieve, and analyze high volumes of transaction data.
- Integrated Firebase Authentication and custom algorithms to ensure secure user access and high accuracy in document processing.

AI Thumbnail Generator 🌐 🚀 | *React.js, Node.js, AI Integration*

- Built a full-stack AI-powered web application that automates the generation of engaging YouTube thumbnails based on user prompts.
- Integrated advanced generative AI models to dynamically render high-quality, customized images in real-time.
- Designed a responsive and intuitive React frontend, allowing users to customize fonts, overlays, and layouts for generated thumbnails.

Full-Stack Blog Platform 🌐 🚀 | *MERN Stack, JWT Auth*

- Engineered a comprehensive blogging platform allowing users to securely create, edit, publish, and engage with rich-text articles.
- Implemented secure user authentication and authorization using JWT, ensuring content protection and personalized user dashboards.
- Developed a scalable RESTful API with Node.js and Express to handle CRUD operations and media management efficiently.

Real-Time Chat Application 🌐 🚀 | *MERN Stack, Socket.IO*

- Developed a real-time messaging application enabling seamless, low-latency communication between users through bidirectional WebSocket connections.
- Architected the backend using Express.js and Socket.IO to efficiently manage concurrent connections, online statuses, and message history.
- Built a dynamic React.js frontend with responsive design, real-time typing indicators, and secure user authentication flows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Three.js, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, NestJS, FastAPI, JWT Authentication

Database & Cloud: MongoDB, MySQL, Git, GitHub, Postman, WebRTC, Zegocloud

Programming: C++, C, JavaScript, Data Structures & Algorithms (DSA), OOP

EDUCATION

Rajasthan Technical University (RTU) : Kota (*Aug 2023 – Apr 2027*)

B.Tech – Computer Science & Engineering, CGPA: 9.11/10 (Till 5th Semester)

ACHIEVEMENTS & LEADERSHIP

- Placement Cell, RTU Kota (Technical Head):** Directed recruitment drives for 20+ students and increased placement participation by 30%.
- Paranox Hackathon Finalist:** Developed VoteChain (blockchain voting app) securing Top 22 out of 200+ teams.
- Unstoppable & Reckon Hackathons:** Secured Top 10 by engineering a software prototype in 24 hrs; developed a mock clinic portal in 24 hrs.
- Competitive Programming:** Solved 100+ complex DSA problems on LeetCode and fiercely competed in 50+ national-level hackathons.
